INFORMATION AND MANAGEMENT SUPPORT STAFF
WEEKLY REPORT FOR PERIOD ENDING 21 MARCH 1984

1. Progress Report on Tasks Assigned by the DCI/DDCI:

No tasks assigned during this reporting period.

2. Items or Events of Major Interest that have Occurred During the Preceding Week:

a. DAS - On 20 March, representatives from IMSS/OL, OC and OL spoke to the issues of placing ADP capabilities in the hands of overseas Log Officers. The use of both Wang PCs and Alliances was discussed, together with the many security restrictions that currently exist. This was the first in a series of similar meetings designed to resolve these issues. (No known problems exist with the first PC placement, now operating at a remote site.)

b. LIMS - A number of meetings have been held during the past week in an effort to resolve the list of action items that resulted from the LIMS Preliminary Design Review. Individuals representing various OL components and Booz-Allen & Hamilton attended these meetings. The dialogue was meaningful and, as a result of these meetings, the developer has gained additional insight into how we do or would like to do business. Formal responses to action items will be prepared by the developer, and the originator of the action item will be provided a copy.

c. Regulations - The following regulations were written, reviewed, commented upon, concurred in, or published during the past week:

25X1

Contracts between CIA and Former CIA Employees - This HN, submitted several months ago, was published.

25X1

Office of Communications - Concurred.

25X1

25X1

Technical Group/DAS/IMSS/OL
WEEKLY STATUS REPORT
Week of 12 to 16 March 1984

I. Major Activities During the Past Week:

A. Support to OL:

STAT ICS (Inventory Control System). [redacted]
attended a meeting on 12 March to discuss plans the LIMS Project
STAT Staff have regarding ICS and BOC of LIMS. The meeting was called
STAT by [redacted], LIMS Deputy Project Manager, and was attended by
several members of the Booz-Allen contract team. Aside from a
preliminary time-table being discussed, the need for members of
the LIMS project to study ICS and have [redacted] provide
detailed information on ICS procedures was addressed. Also
mentioned was the requirement to establish a separate test
database for LIMS and to set a "freeze date" for enhancements to
the current ICS system. Access to the ICS test database (MRS1)
STAT was provided for four of the Booz-Allen contractors who will work
on the initial LIMS work package. [redacted] (U)

II. General Items:

A. Support to OL:

STAT TRAINING. [redacted] attended the "NOMAD2 Applications
STAT Development" course in Rosslyn on 12-14 March. [redacted] (U)

STAT MISCELLANEOUS. [redacted] attended the ODP Reorganization
Briefing for ADP Control Officers on March 14 at Headquarters
Auditorium. The main topic presented was on the availability of
the Consulting and Services Group, ODP, for users to go with ADP
system inquires. There they will be assisted in designing and
STAT implementing their own ADP systems or directed to the proper ODP
Group for implementation. [redacted] (U)

B. Support to ODP:

STAT MISCELLANEOUS. [redacted] attended an ODP conference at an
STAT offsite location on 16 March to discuss past, present, and future
values and goals of ODP. [redacted] (U)

III. Problems:

A. Support to OL:

STAT ICS (Inventory Control System). During an attempt to extract
test data from ICSOP ACT file on Tuesday, all online history
records were incorrectly updated with an effective date of 13
STAT March 1984. [] worked with [] DBCC/ODP, to dump
Tuesday's transactions, restore the ACT file to Monday nite and
then load transactions from Tuesday back into the database that
STAT evening. No data was lost and only a short delay was caused in
running GAS for Tuesday nite. [] (U)

IV. Upcoming Events:

None to report.
